### **Database Permissions**

- Installer must have rights to create databases, tables, views, and stored procedures.

### **Database Access**

- LT Auditor+ must have an ID with 'dbo' access to the databases created during installation namely LTAProductionDB and LTAArchiveDB.
- This ID can be either be a functional domain account or a database account on the SQL Server instance.
- If database is hosted on the same machine as the LT Auditor+ Manager, the NT Authority\System can be used.

### **Database Size**

- Plan on a size 500GB with potential to raise up to 2TB based on volume of auditing and organizational data retention requirements.

## ***LT Auditor+ Manager***

### **Operating system**

- Windows Server 2012R2, 2016, 2019, 2022

### **Hardware**

- RAM: 8GB RAM
- Hard Disk: 200+ GB

### **Software**

- Microsoft .NET 4.0

### **System Permissions**

- Installer must have 'administrative privileges to install the Manager.

Note: Manager can be a virtual instance

## ***LT Auditor+ Applications***

### ***LT Auditor+ Manager Console***

#### **Operating system**

- Windows 10, Windows 11, Windows Server 2012R2, 2016, 2019, 2022

#### **Hardware**

- RAM: 4GB RAM
- Hard Disk: 5+ GB

#### **Software**

- Microsoft .NET 4.0

### ***LT Auditor+ Report Console***

#### **Operating system**

- Windows 10, Windows 11, Windows Server 2012R2, 2016, 2019, 2022

#### **Hardware**

- RAM: 4GB RAM
- Hard Disk: 10+ GB

#### **Software**

- Microsoft .NET 4.0

### ***LT Auditor+ Agents***

#### **Microsoft Windows Agents**

- Windows 10, Windows 11, Windows Server 2012R2, 2016, 2019, 2022
- Minimum 2GB of RAM
- .NET 4.0
- 500 MB of disk space
